

# Miss Fini's BOREDOM BUSTERS

I hope you enjoy at least one of the 'Boredom Busters'.

Don't forget to ask the permission of your parent/guardian before you start! 😊

If the idea in the grid has a star by it, this means I have provided some extra information about the apps that you could use or some pictures for ideas.

1. Make some 'Rainbow Bubbles!' ★

2. Make a video about your favourite hobby - use iMovie or Adobe Spark. ★

3. Learn, practise and perform a Talent Show to your family!

4. Using Lego, make a stop motion video retelling your favourite book. ★

5. Using your leftover recycling, create your own musical instrument. ★

6. Learn 10 useful things to say in a new language and then teach someone else at home.

7. Go 'Bird Watching' in your garden. How many different birds can you see?

8. Build an indoor tent or fort with couches and some bed sheets.

9. Turn on the radio and dance like nobody's watching.

10. Construct an indoor or outdoor obstacle course. Can you complete with a blind fold and someone giving the instructions?

11. Choreograph your own dance routine.

12. Host a movie night. Plan for it by drawing tickets, making popcorn and setting up the room like a cinema.

13. Learn a new card game and teach your family how to play.

14. Make up a secret language.

15. Create a miniature garden in a small box or shoe box. ★

16. Learn origami.

17. Make up a fun song about your family and perform or video it.

18. Design your own Harry Potter creature.

19. Try to replicate a famous painting.

20. Learn the alphabet in sign language.

21. Paint a stone paperweight.

22. Play noughts and crosses using rocks.

23. Create your own scrapbook showing everything that you've been up to.

24. Create a painting using bubbles. ★

25. Make a nice lunch for someone in your family. You could have a little picnic.

26. Make your own scavenger hunt. Set clues around the garden or house leading to the ultimate treasure!

27. Have a Lego building contest.

28. Create a 'Random Acts of Kindness' jar.

29. Research the history of where you live and present your information how you wish.

30. Create your own version of 'Marble Run' using items around the house! ★

31. Create and write your own quiz to play with your family at home or on a video call with your friends.

32. One clear evening go star gazing in your garden. See if you can spot constellations and even wish upon a shooting star.

33. Using old newspaper, tape and scissors, create a new item of clothing.

34. Set up your own café for your family at home to attend.

35. Make your own playdough and create something of your choice.

36. Make your own magazine filled with images and articles.

37. Learn a song in sign language and perform to your family.

38. Memorise all the Kings and Queens.

39. Build your own Bug Hotel using things around your home and garden.

40. Make your own jigsaw puzzle or board game.

1. Make some  
'Rainbow  
Bubbles!' ★

You could always create bubbles  
without using food colouring and  
using fair liquid instead.

# Rainbow Bubble Clouds

Why blow normal bubbles when you could create a rainbow bubble cloud instead? Here's how to do it.

## WHAT YOU'LL NEED

- one 500 ml empty water bottle
- scissors
- sock
- rubber band
- food colouring (several colours)
- bubble solution
- shallow dish

## STEP 2

Slide the sock over the water bottle and use a rubber band to hold it in place.

## STEP 1

Cut the bottom off the water bottle.

## STEP 3

Drip food colouring onto the sock in any patterns and colours you like.

## STEP 4

Pour some bubble solution into a shallow dish. Dip the sock into the solution, then blow through the neck of the bottle. A rainbow-coloured cloud of bubbles will emerge from the sock!

2. Make a video about your favourite hobby - use iMovie or Adobe Spark. ★

Adobe Spark is a fantastic app that you can use to create a video.

You can upload pictures, video, text and even add your own voice-over.

Year 6 had lots of fun using this app in class. They made their own TV advert for a Victorian job. They loved the use of the voice-over tool to add some drama!

Make sure you ask permission before you download the app, as you will need to set up a free account before you start your first video.

Otherwise, iMovie is a great app too.

4. Using Lego, make a stop motion video retelling your favourite book 

App Tutorial:  
Stop Motion  
Studio for  
iOS

You could use the free app, 'Stop Motion Studio'.

You don't even have to use Lego. You could use paper and a pencil!

You need to take lots of pictures and only change one small thing each time.

Lots of lucky children who have attended Mrs Evan's Stop Motion Club will be experts with the app! There are lots of tutorials to help online too.
